

# TO HALE MEAT PACKERS BEFORE COURTS

## FIRST CONCRETE DEVELOPMENT IN PRICE WAR

### President to Address Congress on Food Costs Friday

WASHINGTON, Aug. 6.—Anti-trust suits against the great meat packing firms were announced today by Attorney General Palmer as the first concrete development of the government's campaign to reduce the high cost of living.

"Big Five to be Prosecuted."

Armour, Swift, Morris, Wilson and Cudahy, who have been pictured in the investigations of the federal trade commission and before congressional committees as a great combination in control of food products are to be haled again before the federal courts by special prosecutors.

Whether the prosecutions would be civil or criminal the attorney general declined to state.

The history of the government's anti-trust prosecutions in 25 years does not show a single individual ever serving a jail sentence for a violation. There are evidences that the government hopes for some in the present campaign.

Mr. Palmer's announcement follows:

"The department of justice has made a careful review of the evidence developed by the investigation into the combination of packers, both by the federal trade commission and the hearings before the committees of congress. This review has been made by lawyers specially retained for the purpose and their report is now in hand. I am satisfied that the evidence adduced indicates a clear violation of the anti-trust laws and prompt action will be taken accordingly.

"While under the immediate direction of the department of justice will be in charge of Isadore J. Kessel, of the law firm of Jerome, Rand & Kessel of New York, who will be given such assistance as the case seems to warrant."

**Unleashes Special Agents**

Attorney General Palmer today also unleashed his special agents on a country wide trail of profiteering and food hoarding. These prosecutions come under the federal anti-trust law. All United States attorneys were instructed to ferret out food hoarders and libel them under federal law.

President Wilson continued to give close attention to the food problem and declined a proposal to postpone his address to congress until next Tuesday instead of this Friday.

Republican House Leader Mondell of the house suggested the postponement because of absence of members from Washington. The president's letter follows:

"I am very sorry that I cannot comply with your suggestion of delay in the matter of my address to a joint session of congress. The situation which impelled me last week to ask congress to postpone its recess until my recommendations could be submitted is still acute. I have had under serious consideration the proper action of the government with reference to the high cost of living and I feel that it is my duty at the earliest possible moment to present certain recommendations now ready for submission to congress.

"I have therefore, asked, the vice president and the speaker to arrange, if possible, for a joint session for Friday afternoon next at 4 o'clock."

**Subjects Wilson May Take Up**

There was no intimation from the white house as to the nature of the recommendations the president would make in addressing congress. In view of several officials, the president probably would deal with these subjects:

Enlargement of the provisions of the Lever food control law to make it operative after the proclamation of peace and applicable to shoes, clothing and all life necessities in addition to food.

Legislation to reach the small or individual profiteer as well as "big business" extortion.

Laws to make speculation in necessities as crime.

Legislation limiting the margin of profit on necessities.

Another subject of the federal trade commission's report on the shoe industry investigation.

This report charged that the high price of shoes resulted from excessive profits taken by every factor in the trade. The packers, tanners, manufacturers and retailers all shared in the blame. The report was placed before Attorney General Palmer.

"The boarder is the big part of the game right now," in the opinion of the government officials in charge of the efforts to bring down prices, and Attorney General Palmer indicated today that he was depending largely on the section of the Lever act, dealing with hoarding, as one of the most immediate means of forcing prices down.

# LABOR PRESENTS RAILROAD BILL TO CONGRESS

## President Supplements Jap Statement

WASHINGTON, Aug. 6.—President Wilson issued a formal statement tonight saying that the "frank statement" made by Viscount Uchida as to Japan's policy regarding Shantung, "ought to serve to remove many of the misunderstandings which had begun to accumulate about this question."

The president's statement follows:

"The government of the United States has noted with interest the frank statement made by Viscount Uchida with regard to Japan's future policy respecting Shantung. The statement ought to serve to remove many of the misunderstandings which have become to accumulate about this question. But there are references in the statement to an agreement entered into between Japan and China in 1915, which might be misleading, if not commented upon in the light of what occurred in Paris when the clauses of the treaty affecting Shantung were under discussion. I therefore take the liberty of supplementing Viscount Uchida's statement with the following:

"In the conference of April 30 where this matter was brought to a conclusion among the heads of the principal allied and associated powers, the Japanese delegates Baron Makino and Viscount Chinda, in reply to a question put by myself declared that: 'The policy of Japan is to hand back the Shantung peninsula in full sovereignty to China, retaining only the economic privileges granted to Germany, and the right to establish a settlement under the usual conditions at Tsingtao.'

"The owners of the railway will use special police only to insure security for traffic. They will be used for no other purpose."

"The police forces which will be composed of Chinese and such Japanese instructors as the directors of the railway may select will be appointed by the Chinese government. No reference was made to this policy being in any way dependent upon the execution of the agreement of 1915 to which Count Uchida appears to have referred. Indeed I felt it my duty to say that nothing that I agreed to must be construed as an acquiescence on the part of the government of the United States in the policy of the notes exchanged between China and Japan in 1915 and 1918; and reference was made in the discussion to the enforcement of the agreements of 1915 and 1918 only in case China failed to cooperate fully in carrying out the policy outlined in the statement of Baron Makino and Viscount Chinda."

"I have of course, no doubt that Viscount Uchida had been apprised of all the particulars of the discussion in Paris, and I am not making this statement with the idea of correcting him, but only to throw a fuller light of clarification upon a situation which ought to be relieved of every shadow of obscurity or misapprehension."

**NO CHANGE IN FLOUR PRICES**

Minneapolis, Aug. 6.—There was no appreciable change in the price of flour here today. High grade patent flours were quoted at \$11.10 to \$11.60 a barrel in car load lots and a dollar higher for broken car loads. Millers here denied knowledge of any movement contemplated by the government to sell flour at reduced cost.

The attorney general pointed out that all of the war time law covering the production and distribution of food stuffs still were in force and that they would be used to the fullest extent.

Testifying before a senate committee investigating living conditions in the District of Columbia, Thomas E. Wilson, president of Wilson & Co., and chairman of the Institute of Meat Packers, declared that the packers were not profiteering. The high cost of living, he told the committee, was a world problem and not local.

"The world is on a holiday and people are spending money like drunken sailors without producing," he added.

**Packers 'Welcome' Suits**

Chicago, Aug. 6.—Chicago packers stated tonight that they "welcomed" suits under the anti-trust laws which Attorney General Palmer announced in Washington today would be started against the great meat packing firms. J. Ogden Armour and Louis F. Swift heads of the two larger concerns, said the suits would afford the opportunity to go before an impartial body of men and show that the packers did not control prices and were not responsible for high prices of meats.

## SHANTUNG DOES NOT SQUARE WITH WILSON TENET

Lansing Gives Opinion—Thinks Points 'Substantially' Followed

WASHINGTON, Aug. 6.—Secretary Lansing, before the senate foreign relations committee today, expressed the opinion that the Shantung provision of the peace treaty did not square with President Wilson's enunciated principle of self-determination but maintained that the treaty as a whole carried out "substantially" the president's fourteen points.

**Unfamiliar With Many Details**

Declaring his unfamiliarity with many details of the peace negotiations and of the treaty the secretary told the committee he was unable to answer many of its questions and reminded senators in answering others that he was expressing his personal views.

"Ask the president," the secretary said when pressed for details of the Shantung and league of nations negotiations. On three of the points raised he asked permission to refresh his memory and make a statement to the committee later and when he was asked for a detailed construction of the labor and reparations clauses he protested that he could not be expected to carry the minutes of an 80,000 word document in his mind.

Senator McCumber, Republican North Dakota said he objected to provisions which would give the governing labor body power to reject delegates named by the United States and place this country in an "abject position."

The secretary said the labor provisions were advisory. "I have yet to see anything that is compulsory on the members," he said, stating that obligations of the labor clause were moral.

Secretary Lansing said that if economic measures were used by league members against a nation the latter would be permitted to make reprisals. Senator Johnson asked at whose suggestion the Anglo-French treaty was made.

"The president," Mr. Lansing replied, "I don't know if it was his original suggestion, but I first heard of it from him."

Mr. Lansing said he believed the French treaty merely supplemented Article 20 of the league of nations covenant.

"Could any offensive or defensive alliance be made under Article 20," asked Senator Johnson.

"Yes, I don't think it affects it," was the reply.

Senator Johnson recalled Mr. Lansing had stated that American peace commissioners went on the policy that "expediency should not rule principle," and asked whether that policy was followed as to the Shantung provision.

"Not entirely," said Mr. Lansing.

"Was the Shantung decision made in order to have Japan's signature to the league of nations?"

"I really haven't the facts about that."

"Could Japan's signature to the league have been obtained without the Shantung decision?"

"I think so."

Senator Johnson suggested that had the Shantung clause not been adopted the treaty and league covenant would have had another signature.

**China Would Have Signed**

"We would have had China's," Mr. Lansing agreed, adding that the Shantung provision was accepted by decision of President Wilson.

Secretary Lansing reaffirmed his statement that the fourteen points were "substantially" carried out.

Regarding the first point, dealing with "open covenants openly arrived at," he said:

## Allied Troops Reach Capital Of Hungary

COPENHAGEN, Aug. 6.—French troops arrived at Budapest yesterday and British troops under General Gordon and American forces under Captain Wips arrived here today, according to dispatches received from Vienna quoting the newspapers of that city.

**Following Rumanians**

Budapest, Tuesday, Aug. 5.—(By The Associated Press.)—Czechoslovak and Serbian troops, following the Rumanians are advancing toward Budapest. Captain Thomas C. Gregory, member of the inter allied relief commission attempted to persuade the Rumanians not to occupy the city presenting protests from the Hungarians, who insisted that only the presence of their and American troops here could bring about a solution without bloodshed.

**Issue Warrants For Officers Of Sugar Company**

PITTSBURGH, Aug. 6.—Warrants were issued today for three officers of the Pittsburgh branch of the Central Sugar Co., of Chicago, charged with profiteering. The informations, which were sworn to by a special agent of the department of justice, charged that the company recently sold sugar at 14 cents a pound wholesale.

Chicago, Aug. 6.—The Central Sugar Co. is a wholesale dealer in sugar and has been in business 15 years. George W. Sheehan, president of the company is out of the city. His assistant said the government had placed no restriction on the price of sugar.

**TURN BOOKS OVER TO UNION OFFICIAL**

AURORA, Ill., Aug. 6.—General Manager Edwin C. Faber of the Aurora, Elgin and Chicago railroad today turned over the books of the company to Edward McMorris, member of the executive board of the Amalgamated Association of Street and Electric Railway Employees, to figure out a way in which the company can secure enough added revenue to pay the wage increase of 21 cents an hour demanded by the six hundred car men and shop hands who have been on strike since July 30. The railroad and union officials went into conference today to figure out some means of increasing the company's revenue. The company offers to turn over all additional revenue allowed by the public utilities commission to the men in increased wages.

**FARMERS CONDEMN THREATS OF REVOLT**

INDIANAPOLIS, Ind., Aug. 6.—In a telegram to President Wilson the Indiana Federation of Farmers' Associations representing more than 100,000 Indiana farmers condemned "vile threats of a revolution and declared that it seriously considered advising its members to hold all farm products until the railroad strike ends. The message signed by Lewis Taylor, general secretary of the association added:

"We believe in such arbitration as will result in justice and fairness to all concerned, with work to be resumed pending a decision in the matter."

**FILE SUIT AGAINST MACHINISTS UNION**

WATERLOO, Ia., Aug. 6.—Damages of \$400,000 for breach of contract on the part of employees of the Waterloo Gasoline Engine Co., following the precedent of the famous Danbury hatters' case are asked in a suit filed yesterday by that concern, which is owned by John Deere Co., Moline, Ill., against the International Machinists' Union, its organizer, officers and members. Conspiracy to unionize the factory, change hours and terms of labor and working conditions is alleged, as well as broken contracts made by individual employees.

**WILL TRY FIFTY ALLEGED RIOTERS**

CHICAGO, Aug. 6.—Fifty alleged race rioters will be placed on trial early in October for murder, assault with intent to kill, conspiracy to riot and carrying concealed weapons. It was announced today by the state's attorney, Speedier trial would be urged, it was stated, but for a summary court decision which declared that a person must be given a "reasonable time in which to prepare a defense."

## ELEVEN HORSES BURN IN EARLY MORNING FIRE

Jacksonville Transfer Company Barn Set Afire by Lightning Bolt—Building and Contents Total Loss.

Fire which started from a bolt of lightning at 1:25 o'clock this (Thursday) morning totally destroyed the large barn of the Jacksonville Transfer company, situated in the rear of the company store house in East State street.

Eleven horses were burned, all of the wagons and one automobile truck. One truck was not in the building at the time of the fire and an Oldsmobile also was stored in another place.

In addition to the above there was a quantity of four page rolls of paper belonging to the Journal company, a consignment of binder twine the property of the International Harvester Company, sugar belonging to George Schmalz and some oats.

The fire was first seen by Don Cowgur, a taxi driver, who called it to the attention of William Hainline, the night operator of the Aton. Hainline immediately turned in the alarm to the fire department. The department was soon on the scene but the flames had gained such headway that all that could be done was to confine them to the barn, which was soon a mass of smoldering ruins.

Frank Eades, a member of the firm of McBride & Eades, owners of the transfer company, did not know just what the loss would be. He said that they carried insurance but that he did not know just what amount. He was unable to say just how much paper, binder twine and oats were in the barn at the time.

One of the fire trucks going to the fire went down East College avenue and got stranded in the subway which was filled with water. The water stopped the motor and the firemen were forced to wade out.

E. J. Christopher, operator at the Burlington station, was knocked from his chair by the bolt of lightning that struck the barn. He was stunned for a time but suffered no ill effects.

The alarm was first sent for a barn on East College avenue. An oil tank on the track near the building was a cause for concern but fortunately did not catch fire. Altogether the loss was small by comparison with the disaster which might easily have resulted. The firemen did well to confine the fire to the one building.

Mavor Crabtree, Ald. Moore, Ald. Cain and other city officials were on the scene soon after the alarm was given.

**PACKERS SPEAK AGAINST BILLS**

CHICAGO, Aug. 6.—J. Ogden Armour, Louis F. Swift and Edward Morris, heads of three great packing companies today addressed members of the Live-stock Committee of the Illinois Agricultural association at the latter's invitation, regarding the Kennedy and Kenyon bills, now pending in congress, and proposed licensing and other regulation of the packing industry. All three assured the farmers that such legislation was so drastic that they believed the result was certain to be injurious to all concerned, with increased prices to the consumer as almost certain.

**PROTEST AGAINST PROPOSED ARMY BILL**

SPRINGFIELD, Ill., Aug. 6.—Copies of a protest against the Chamberlain-Kahn bill providing a permanent military policy for the United States sent to all members of the house military committee were forwarded to state militia authorities here today.

The protest, sent by Adjutant General Charles W. Berry of New York, declares the measure would take away the powers of present national guard organization.

**SELL SURPLUS HARNESS**

Chicago, Aug. 6.—Agents of the war department today sold at public auction \$2,000,000 worth of surplus saddles, harness, leather straps, raw and finished hides. Two hundred dealers from many sections of the country attended the sale and the bidding was spirited. Most of the surplus stock was disposed of in large lots.

**CAR WORKERS STRIKE.**

Butler, Pa., Aug. 6.—Between 5,000 and 6,000 men went on a strike at the four plants of the Standard Steel Car Co., here at noon today for higher wages.

**DECLINE TO CALL GENERAL STRIKE**

London, Aug. 6.—The national union of railway men declined today to call a general strike of its bill affecting the police organization.

## STATES HIGH SHOE PRICE NOT JUSTIFIABLE

Federal Trade Commission Reports on Probe of Industry

WASHINGTON, Aug. 6.—The high price of shoes was declared to be due to the excessive profits taken by every factor in the industry in a report by the federal trade commission to congress today. The packers were charged with having begun the pyramiding of shoe prices by an unwarranted increase in the price of hides, the supply of which they are said to control. On top of this, it was charged, the tanners have taken "exceptional profits," while the shoe manufacturers have demanded an "unusual margin" and the retailers have charged prices that are "not justifiable."

**Covers Four Year Period.**

The commission's report covering the four year period from 1914 to 1918 is the result of an inquiry begun more than a year ago, it was said. It has been in the president's hands for some time, and it is understood that he urged its speedy printing and transmittal to congress in connection with efforts of the government to combat the high cost of living.

To show that the packers during the last four years have made unwarranted increases in the prices of "packer" hides the report pointed out that the price differential between their hides and "country" hides—hides of a lower grade—has increased "far beyond the usual proportion."

Charges of excessive profits against the tanner and the shoe manufacturer were said to be supported by the "high rates of return on investments" in both industries following the price increases.

"The public," said the report, "had to pay prices for shoes that not only could not be justified because retail shoe dealers took much profit but because the dealer had to pass on to the consumer the excessive profits received by butchers for hides and also the excessive profits of tanners and shoe manufacturers."

**Suggests Remedies.**

"Some relief from the intolerable prices paid by consumers for shoes may be had," the commission said, "by:

"(1) A rigid enforcement of the laws against monopolistic control of commodities.

"(2) Legislation forbidding producers of hides engaging in the tanning business, and.

"(3) The adoption of a device in the distribution of shoes that will acquaint the consumer with the selling prices of the manufacturer."

While noting that because of increases in the costs of materials during the war period "prices were bound to advance considerably even though no large profits were obtained," the commission said manufacturers and retailers all made "unprecedented profits."

"Given in 1914 the tanning industry was prosperous," it reported. "In perhaps a majority of cases earnings were 1 per cent or more and only a few suffered losses. By 1916 and 1917 it was rather unusual for a company to earn less than 20 per cent. A similar comparison for manufacturers of shoes shows that more than twice as many made a profit of 20 per cent or more in 1916 and 1917 as did in 1914."

"The rate of return on investment to shoe merchants cannot be stated, but it is evident from the volume of business they had and from the gross margins of profit they secured per pair of shoes, that their business was very profitable."

## War Cripples Complain Of Board's Results

PHILADELPHIA, Aug. 6.—Hundreds of war cripples in this country are registering complaints against the ineffectual results obtained by the federal board for vocational education, the government agency charged by congress with the responsibility of retraining disabled soldiers for usefulness, according to a statement issued today by the association for disabled soldiers, sailors and marines.

**Claim Many Suffer Hardships**

Cases of wounded soldiers who have been made to suffer untold delay, injustice and hardship because of the faulty administration of the federal board are said to have come to the attention of the association, which is an organization of over five thousand disabled ex-service men bent on getting a square deal for the thousands of their fellows.

The federal board for vocational education with headquarters at Washington is under the chairmanship of Secretary of Agriculture Houston.

The director of the board is Charles A. Prosser.

"After waiting for many months for the federal board to make adequate provision for the crippled soldier after returning to jobs because of disabilities incurred in service and after urging President Wilson to veto the sundry civil appropriation bill so that the federal board might receive \$14,000,000 to carry on its work, it is disappointing to find that the board has failed to inform the public of the situation regarding the disabled soldier."

"Investigation and actual contact with thousands of war cripples have revealed the following instances of injustice to the disabled soldier:

**Give Instances of Injustice.**

"1: According to a federal board report under date of June 21, 1919, only eleven men have been placed in remunerative employment after completing courses of training.

"2: Hundreds of men have complained that they were compelled to wait from six weeks to six months without pay and forced to depend on the help of friends or charity before their cases were acted upon by the board.

"3: A number of men have complained that in spite of President Wilson's order that physical examinations be waived in the cases of men certified by the federal board for civil service jobs, the board refused to give the men the required data and that consequently they were unable to obtain the positions.

"4: The federal board has issued an order that precedence be given to cases of seriously disabled men over those with minor injuries. Such a ruling is resented by the thousands of soldiers who have suffered less conspicuous disabilities.

"5: Many trainees under the federal board system have objected to their being reduced by the board by the amount that they earned while learning a new trade. This is unfair, they claim, since such a method offers no incentive for progress and it encourages the employer to exploit the disabled soldier.

"6: Another grievance of the association is that it has not learned of single disabled soldier among the 1,600 employees of the federal board.

"7: The federal board has announced it has made contracts with 146,931 men for training and that of this number only 5,878 already have been placed in training. At its present rate of progress it will take the board over a year to place the board over training. As a result over 100,000 disabled men will be waiting without pay from the federal board."

**WOULD ORDER ROAD TO OPERATE PLANT**

CHICAGO, Aug. 6.—A delegation of business men applied to the Illinois state public utilities commission today for an order directing the Aurora, Elgin and Chicago railroad whose employees are on a strike for higher wages to resume operation of the plant which furnishes light and power to Elgin and a number of other cities along the line.

The commission referred the petition to Chief Engineer Frank G. Ewald who listened to the plea of the delegation and took the case under advisement. He said he expected to give a decision either late today or tomorrow.

London, Aug. 6.—The allies have not altered their decision to hold the trial of the former German emperor in London, Andrew Bonar Law, government leader announced in the house of commons today. He said no action could be taken until the German peace treaty was ratified.

**ESCAPED PRISONERS AND GUARDS RATTLE**

Everett, Wash., Aug. 6.—In a fight between reformatory guards and five prisoners who escaped from the Monroe reformatory last night, one fugitive was killed, one slightly wounded, and two still are at large. The men were tracked by bloodhounds to near Sultan, where a running fight took place.

One thousand additional policemen have been added to the force in Chicago. If Mayor Thompson had not been recently re-elected this addition would have been charged to political intent. However, the appointments are only temporary and action was taken because of the present special emergency.

## MORE PEOPLE BUYING GOVERNMENT SECURITIES.

Notwithstanding the acknowledged unrest and the agitation about the high cost of living, it is a hopeful sign that the number of persons buying Thrift stamps and other government securities is constantly increasing. Compiled statistics show that the lessons of the war time have not been forgotten and that the demand for Thrift stamps and War Savings certificates constantly increases. This is due partly to the admirable plan adopted by the government for organizing Thrift or W. S. S. societies, especially in industrial institutions.

No wonder thousands of immigrants have each year come to

the U. S. from Europe attracted by the opportunities which life in a republic gives. Even with their lack of education many of these foreigners are able to appreciate what the public school system of the U. S. means. They catch some idea of the meaning of huge expenditures for educational purposes in the great American cities. Each year New York spends \$42,000,000 for educational purposes; Chicago spends \$17,000,000 and other large cities appropriate similar amounts.

Weeds are disappearing from vacant lots in Jacksonville. It's just another case of really impressing upon the public that conditions objected to really constitute a menace to the public health, and further that ordinances must be enforced. When the people thoroughly understand a given question they can always be trusted "to do the right thing."

The right of the railroad workers to demand increase in pay to lower living costs will not be questioned. When it comes to their insistence that the railroads must be taken out of private hands and be operated by the government under a new plan, that is a different matter. If the railroad workers could but give definite assurance that by their plan there would be greater efficiency and economy they would have the best of the argument. Unfortunately they cannot give this proof and the argument for government ownership based on accomplishment under government operation is not of a convincing kind.

Big display advertisements of "closed to make invoice before reduction sale" are so rare these days that they are very conspicuous. The closing out and renovation sales are frequent these days, both because of the difficulty merchants have in securing goods and because of the upward

tendency of the markets. Some merchants figure they are making more money on the goods they keep on their shelves than they are on the goods actually sold to consumers. This of course means that with a rising market stocks on hand have a continually increasing value.

England has paid the U. S. a war debt of \$35,000,000 based merely on verbal contracts. This instance is said to be unique in history and furnishes new, tho' unneeded, evidence of the unswerving honesty of Great Britain and still further testifies to the cordial relationship existing between the U. S. and "the mother country."

Hotels of modern type are being constructed in scores of American cities, some of them of the size of Jacksonville. Men with money are now ready to invest in these enterprises because the hotel business has increased in a remarkable way. The increase has possibly come because of the larger expense of maintaining homes, and further because modern hotels furnish comforts and luxuries not possible in the average home. Present day tendencies make hotel life more alluring than it has been in the past.

## DOING THINGS.

There is a great change come over the spirit of the people of the City of Jacksonville. It is apparent at every turn. People are beginning to talk of "what we are doing." It is a matter of pride that we can take a stranger out to the "dam" site, to explain what the city and its citizens are attempting. That pile of dirt out there means more to us because it is "our" work, because it shows that united effort can accomplish something.

It means new spirit, new life, new faith in the future of our city. There is hardly a vacant house or house for rent in Jacksonville. People want to come here to live, many are seeking homes here. Why? Because of the faith that many citizens of the place are evincing in this their home city. There is no "boom," simply a steady advance in the desirability of the place as a home.

Our new council and our board of education have done and are doing much to create this feeling by their attitude regarding public affairs. The people are being consulted, officials elected by the people are not blundering along, but are endeavoring in every way possible to take the people into their confidence, to find out what their constituents want and to

## TIMELY THEMES.

The day is hot as melted lead; I place some ice upon my head, and seek the shade of doors; and there I read some cooling book—the voyages of Dr. Cook along the arctic shores. The doc is held to be a fake, but in his writings he can make a man forget the heat; with him I walk where blizzards roll, discovering a pipe dream pole among the framed up sleets. My reading takes me farther back; I follow Sir John Franklin's track, to where it has an end; he vanished in the storm and rack, and never sent a message back to any mortal friend. Somewhere the polar night wind moans above Sir John's heroic bones, all buried deep in snow, the bones of others by their side but how the heroes wrought and died we nevermore shall know. I read of Greeley's hunger camp, and feel a tear in either lamp, for that's a frightful tale; and as I read I seem to hear the ice floes crashing far and near and feel the bitter gale. A neighbor comes along and cries, "Gee whiz! Our Augusts and Julys are getting worse and worse; this heat if longer it persist, will get my goat, I wot and wist, and put me in a hearse." I hear his words in mild surprise; I've been abroad 'neath arctic skies, among the endless snows; and I am feeling just as if my ears and nose were frozen stiff, and I had chilblained toes.

## DEATHS

## Coard.

F. M. Coard has received word of the death of his brother, John J. Coard of Hot Springs, Ark. Deceased had been ill for some time and death was a welcome relief from suffering. He leaves a wife, two sons and two daughters. He was a veteran of the civil war and well known in the community in which he lived. Mr. Coard of this city is the sole survivor of eight brothers and sisters.

## Looker.

Miss Grace Looker of Beardstown, aged 14 years, died at Passavant hospital at 12:45 o'clock this (Thursday) morning. She was brought to the hospital Wednesday to undergo an operation but it was too late to perform it. She is survived by her parents and several brothers and sisters. The remains were removed to Gillham's undertaking parlors and prepared for burial. They will be taken to Beardstown for funeral services and interment.

## Merriwether.

Rev. I. D. Merriwether, one of the most highly respected colored citizens of this city, died Wednesday morning at two o'clock in his late home at 676 South Kosciusko street, after a lingering illness of several months.

He was born in Pike county, Missouri, being the eldest son of Mr. and Mrs. William Merriwether of Eolia, Mo., who preceded him in death when he was a mere boy. He was sixty-five years of age at the time of his death.

Rev. Merriwether, a devoted and successful minister in Bowling Green, and Eolia, Mo., for a number of years before coming to Jacksonville in the year of 1904.

He was married to Mrs. Hannah Ross of Louisiana, Mo., on May 12, 1904, they coming to this city to reside immediately after their marriage.

Upon his arrival in Jacksonville he immediately joined Mt. Emory Baptist church and has ever lived a consistent Christian. He was also connected with two fraternal orders being a Mason of high standing and a brother of the U. B. F.'s.

He leaves to mourn his loss his wife, one daughter, Mrs. Mary Martin of Louisiana, Mo., one sister, Mrs. A. Anderson of Louisiana, Mo., and four grandchildren and one great grand child.

The funeral will take place at Mt. Emory Baptist church at 3 p. m. today, Rev. J. W. Muse officiating.

Friends desiring to view the remains will please call at his home between 9 a. m. and 1 p. m. as the casket will not be opened at the church.

It is requested that friends will please omit flowers.

## AUTOS COLLIDED

Wednesday evening about 8 o'clock there was a collision in West State street between a Ford car and the Oldsmobile of William Heint, driven by Mrs. Heint. Mrs. Heint was driving east in West State street and stopped in front of the Heint store. The Ford car in which two women were backing and the cars collided. The right rear fender on the Heint car and the left rear fender on the Ford were bent. It was not learned who the occupants of the Ford car were.

## OLD JACKSONVILLE

## THE REARICKS

By Ensley Moore

(Member Illinois State Historical Society)

It is going back some in the history of this town and county to refer to the Rearicks, for they were of the first of the first in Jacksonville. About four families claim that their ancestors were the first merchants here, and the Rearicks were one of these.

## George Rearick

Was either a German or of that descent. He was born June 7, 1791, and came to this town in 1825, probably having entered the county earlier. He was called "Squire" Rearick, altho his business was merchandising.

While Mr. Rearick generally kept store, yet at one time he had a water grist mill, at Exeter, this county. He also had a steamboat for a while, of which he ran as captain. These occupations show how easily the early settlers turned from one occupation to another.

He was probably a county or circuit clerk, as he was connected with the court house in the earliest days. His first family residence here was on West College avenue, near where Dr. T. J. Pitner's office has been so long. His last place of residence, and the last one of his wife, was at the North East corner of State and Kosciusko streets, now a part of the High School lot.

Mr. Rearick died June 5, 1865, and was buried in the East cemetery. On the handsome monument there, after his name and date of birth and death, is this inscription: "Soldier of the War of 1812, of the Pittsburg Blues"; so this implies his residence before coming here.

## Marries.

Mr. Rearick's daughter, Mrs. Charles McDonald, now resident in the "Ellis house," first door west of the Baptist church, being on the north side of State street, second lot west of Church street, has her parents' family Bible, from which much of their family history is to be obtained. It had previously belonged to Mrs. Rearick's parents, Lewis and Dorcas Abrams. Mr. Abrams was born Feb. 8, 1795, and Emma Freeman was their third child, born March 3, 1810. The Abrams came from New Jersey, and lived here. George Rearick was married to Emma Freeman Abrams February 15, 1826, by Elder Sweet. Mrs. Rearick was a staunch Methodist.

She was born in Monmouth, New Jersey. Mr. and Mrs. Rearick were the parents of:

Catherine Ellen, born Dec. 6, 1826. She married Curtis Conn, Nov. 6, 1849 and their home was latterly in Keokuk, Ia. Mr. Conn was a prominent man and Colonel of an Iowa regiment in the Civil War. Mrs. Conn was a handsome lady.

George Cromwell born March 21, 1825. He married Sarah Vanysek, nee Edom; they lived in Merced, and he died in 1859.

Lydia Coddington, born Sept. 2, 1829 and William Abrams, born March 16, 1831, both died in infancy.

Eliza Ann, born Nov. 14, 1832, married Charles McDonald Feb.

14, 1850. They soon went to California, where they remained about eight years, and then returned to this place. Mr. McDonald was a prominent dry goods merchant here, a member of the First Presbyterian church, and Superintendent of the Sabbath School of that body at the time of his death in October, 1871. Their residence from about 1860 was the home described above, and still occupied by Mrs. McDonald.

Charles, born March 9, 1835. He last lived in Arkansas, and died within about fifteen years.

Jane Abrams, born Feb. 26, 1828.

Henrietta Harrison, born October, 1840, died at about the age of eight years.

Lewis, born April 28, 1843. He went to Memphis, Tenn., and to Iowa, marrying away from here. James Deemer, born Sept. 30, 1845, went to Eldorado, Kansas, where his wife survives.

Walter A., born Oct. 15, 1847, attended West District school, and Illinois College, went away from here, and never married. He died about twenty years ago. In college he was a member of Phi Alpha society.

The Bible from which these birth dates are taken was printed by M. L. & W. A. Davis, New York, 1861.

Mrs. Rearick survived her husband many years, dying Feb. 9, 1897.

## The Coddingtons.

Mrs. Rearick's sister married Joseph Coddington, of whom Eames, in "Historic Morgan," said: "Joseph Coddington was the father of the first white male child born in the county. Its birth occurred in a tent in Diamond Grove." In another place Eames says: "Mrs. Emma F., widow of George Rearick, and sister of Mrs. Joseph Coddington, informs us, since the first chapter was put in type, that her sister's child was not born 'in a tent in Diamond Grove' but in a log cabin. Mr. Coddington was postmaster at one time. She states further that 'Mr. Roe (Isaac Fort) built the first hewed log cabin that was built here, there were other rough log cabins before his. Mr. and Mrs. Coddington lived in this house Mr. Roe boarding with them and it was in this log cabin that Mr. Roe died.' This dwelling probably stood on the east side of the road east of Diamond Grove cemetery, at the point where the road on the south side of the cemetery now takes west. Mr. Roe is buried and has a monument in Diamond Grove cemetery. He was the first man to die in this county. His monument was 'erected by the County of Morgan.' Joseph Coddington was one of the first vestry of Trinity Episcopal church.

## A Co-incidence.

It was an interesting fact that Mrs. Rearick's daughter, Mrs. Conn was the first white female child to be born in Jacksonville, and Mrs. Rearick's mother, Mrs. Coddington was the mother of the first white male child born in this county.

## MAKING ARRANGEMENTS FOR TRIP TO ENGLAND

Mr. and Mrs. George W. Foster were among visitors from Alexander in the city Wednesday. They are soon to leave for a trip to England and were here to consult Captain Clark Boston with reference to securing passports. Mr. Foster came to this country from England many years ago and has since that time made a number of trips across the water to his old home.

Woolens Show  
Steady Increase

When present stocks exhausted  
much higher prices must be paid  
on re-orders-- money saved by  
placing Suit orders now.

Men or women contemplating the purchase of tailored-to-order clothing will do well to give the matter immediate attention—prices of woolens continue to advance.

Mr. Renner, president of this company, returned from Chicago, where he went to purchase goods, Wednesday and found the market decidedly unsatisfactory. Wholesalers and jobbers are endeavoring to protect old customers on future deliveries, but at greatly increased prices. No new customers are being taken on by any of these firms.

So long as our present stock of woolens, for ladies' and gents' suits, lasts we will continue at the old prices. Therefore, we say it behoves you to make selections now.

### Social Events

**Rush for Miss Mamie Tuite.**  
Last evening Misses Florence and Anna Hegarty of East Railroad street gave a miscellaneous rush in honor of Miss Mamie Tuite, soon to marry Richard Longman of Murrayville. A good number of guests were present and a right merry time was enjoyed by all. A fine assortment of useful and ornamental articles was added to the hope chest of the young lady soon to be mistress of a pleasant home in the south part of the county.

**Mrs. H. A. Breeden Entertains.**  
Mrs. H. A. Breeden most pleasantly entertained yesterday a number of lady friends from her former home. The guests were Mrs. Stella Alkire, Mrs. C. C. Savage, Mrs. L. S. Yaple, Mrs. Henry Conover and Miss Leota Campbell. The hours were most happily spent by the guests who finally departed with regret for their Cass county home, Virginia.

**Social for Soldiers.**  
Mr. and Mrs. James Daniel entertained about 50 of their relatives and friends Saturday evening in honor of their brother Daniel, and Otto Wade. They have recently returned from overseas service. The evening was most pleasantly spent in music and dancing and will long be remembered by those present.

The guests were Mr. and Mrs. Ellis Thompson and family, Mr. and Mrs. Bill White, Mr. and Mrs. Clarence Thompson and family, Ed Young, Mr. and Mrs. Will Jones, Mr. and Mrs. Claude Franklin, Russell Long, of Arenzville; Miss Jeanette Vandorne, of Beards-town; Patsy Cull, John Smith, of Chapin; Mr. Norman, of Springfield; Valery, Ruel Mullens, Jess Laughary, Ed Seamalt, Dwight Kershaw, Charles Stanley, Dick Schone, Mr. and Mrs. J. Winner, Chester Warterett, Bryan Winner, Edwin Dinwiddie, William and Theodore Dinwiddie, John Daniels, Misses Grace Daniel, Ollie Daniel, Gladys and Maude Winner, Vinie Logan, Chester Gish, Frank Gish, Carl Rootman, William Strubbe, Joy Brainer, Russell Flynn, Doisie Long, Jimmie and George Jones, Mr. and Mrs. Otto Wade, Bud Daniel and Miss Mabel Daniel.

**Miscellaneous Rush For Miss Marie Tuite.**  
Misses Anna and Frances Hegarty entertained at a miscellaneous rush at their home Wednesday evening in honor of

Miss Marie Tuite, who is to become the bride of Richard Longman, August 12.  
The party was given on the lawn which was tastefully decorated with Japanese lanterns. The color scheme carried out bing pink and white. A number of contests were held.  
In the guessing contest first prize was won by Miss Josephine Longman, second prize by Miss Margaret Burkery. Another amusing contest was "Advice to the Bride." In this contest Miss Elizabeth Sloan won first prize and Miss Agnes Keating second prize.  
One of the main features of the evening was the cutting of an imitation bride's cake. The dime went to Miss Agnes Keating, thimble to Miss Elizabeth Hegarty, darning needle to Miss Josephine Foley, ring to Miss Elizabeth Sloan.  
Miss Tuite received a number of handsome and useful gifts. Refreshments were served and the function proved most delightful in every particular.

### Funerals

**Wells.**  
Funeral services for Mrs. Frank E. Wells were held from the residence, 350 Pine street at 10 o'clock Wednesday morning in charge of the Rev. Walter E. Spoons, pastor of Northminster church.  
Music was furnished by Mrs. James A. Scott and Mrs. J. M. DeFrates with Miss Esther Spoons at the piano. The flowers were cared for by Mrs. Mary Fearneyhough and Mrs. Ruth Hall.  
Burial was in Diamond Grove cemetery the bearers being Lon Fearneyhough, Len Fearneyhough, Elby Fearneyhough, George Bussey Porter Bell and Thomas Butler.

**Baldwin.**  
Funeral services for Mrs. Allen W. Baldwin were held from the residence, 844 South Main street at 3 o'clock Wednesday afternoon in charge of the Rev. Myron L. Pontius, pastor of Central Christian church.  
There was a large gathering of relatives and friends who had known the deceased through the years, to pay a last tribute of respect to her memory.  
Music was furnished by Miss Cora Graham and Miss Fern Haigh. There were many beautiful floral offerings and these were cared for by Miss Mae Martin and Miss Henrietta Clark.  
Burial was in Diamond Grove cemetery the bearers being R. R. Wood, William Stull, C. O. Bayha, James Martin, Frank J. Garland and James Campbell.

### SHANTUNG DOES NOT SQUARE WITH WILSON TENET

(Continued from Page One.)

meht, he declared was effected by the league covenant.  
"But there is no arrangement for reduction there except at the option of nations," protested Senator Johnson.  
**Proposed Moral Obligation.**  
"The covenant proposes a moral obligation," the secretary replied. "That's quite true of the entire covenant. Every nation ultimately has a veto. There is no more modification of sovereignty and there is in the treaty by which we guaranteed the sovereignty of Panama."  
Discussing the fifth point relative to Germany's colonial possessions the secretary said the mandatory system would carry out the principle laid down by the president. He said that the United States had not tentatively agreed to any mandates.

The Russian problem dealt with by the sixth point could not be taken up by the conference the secretary said, while the seventh and eighth, relative to Belgium and France had been carried out. The point relative to Italian borders was to be worked out in other treaties. The tenth, eleventh and twelfth regarding Balkan conditions and Turkey also would be worked out later.

The secretary said the principle of self-determination laid down by President Wilson was violated by the Shantung settlement.  
While no decision had been reached as to the United States accepting reparations from Germany, Secretary Lansing said he personally was opposed to it.  
He assumed that also was President Wilson's position.  
Discussing the obligations assumed under Article Ten, by which the league members agreed to mutually guarantee each other territorial integrity against external aggression, Mr. Lansing said he presumed in honor we would have to follow out the general purposes embodied in that article, altho he thought there would be no "legal obligation."

In answer to Senator Fall, Mr. Lansing said he did not know who was responsible for the failure of the conference to invite Mexico to membership in the league.  
Secretary Lansing will appear before the committee again Monday to make several detailed statements in reply to questions he said he was unprepared to answer today.

### OFF FOR VACATION

C. L. Wiseman and family expected to start today to enjoy Mr. Wiseman's vacation from his arduous duties as rural No. 4 carrier. They are to go by auto and have in their itinerary French Lick Springs and West Baden, Indiana, Lexington and other places in Kentucky, and, in fact, they may see lots more of the country before their return. All the people on No. 4 as well as many others will wish them a pleasant journey.

### MOVE TO CARROLLTON

Mr. and Mrs. J. Oliver Cain, who have been residing at 129 Diamond Court, have moved their household goods to Carrollton, where they will take up their residence. Mr. Cain having recently taken the position as sales manager of the Advance Mill & Elevator company of that place. Their many friends in this city regret to lose them as residents and wish them success in their new home.

### AGAIN RESIDENTS HERE

Mr. and Mrs. Arthur Wood have recently come to Jacksonville from California and will establish their home on the Wood farm seven miles southeast of Jacksonville. Mr. and Mrs. Wood were formerly residents here, but now living in California for a number of years. For ten months Mr. Wood was in the motor transportation service overseas and has but recently been released from army service.

### "WANTED" 2 Experienced Salesladies. RABJOHNS & REID

**SUNDAY SCHOOL PICNIC**  
This afternoon and evening the two Opportunity classes of Grace church Sunday school are to have their annual picnic and supper at Nichols park. The ladies' class is taught by Mrs. Madden and the gentlemen's by Hon. J. J. Reeve and both are in a flourishing condition and have many pleasant hours socially in addition to the good accomplished at the Sunday school.

### Dance at Marquette hall, Franklin Thursday evening. Carroll-Large orchestra.

### JUSTICE COURTS

In Justice Bayha's court Wednesday a suit in forcible detainer was heard, the suit having been brought by John Lazenby against James Surratt. According to the evidence Mr. Surratt is occupying a tenant house on Mr. Lazenby's farm and the latter wanted possession of the same. The court decided in favor of the complainant.

Miss Helen Frost was a city shopper from Winchester yesterday.

### A PLEASANT VISIT

Mention was made yesterday to the recent visit of Rev. J. W. Muse in Detroit. The gentleman while there visited his son Horace H. Muse for three weeks and had a very enjoyable time. The son holds an important position as shipping clerk in the great Ford automobile works and has two grown daughters one of whom Melinda Belle is a valued teacher in the public schools of the city and the other Henrietta is a dressmaker in a large establishment. Mr. Muse says Detroit is full of people and it is well nigh impossible to rent a house there. While he was in the city he preached in three large Baptist churches.

### BIDS FOR COAL

Sealed bids for furnishing 3-in. screened lump coal for all county purposes for one year, will be received, at the office of the county clerk until Saturday, August 23rd, 1919, at 12 o'clock, noon. All coal to be weighed over the city scales, except that to be delivered at the County Home which is to be weighed at the farm.  
The successful bidder must enter into contract and give bond for the faithful fulfillment of the same.  
The county commissioners reserve the right to reject any and all bids.  
August 5th, 1919.  
GEORGE L. RIGGS,  
County Clerk.

### ENLIST IN CAVALRY FOR OVERSEAS SERVICE

Benjamin F. Large of 727 Hardin avenue, and Roy W. Rife of 324 North Main street enlisted yesterday at the army recruiting station in the cavalry for three years for overseas service. Both men were sent to Springfield from where they will go to Jefferson Barracks, Mo., and after a short training period will be sent overseas. So Uncle Sam has added two more tourists to his already large list, and has room for some more. Come up to the office and talk it over with the man that knows.

### NEW LAMP POSTS AT CENTRAL CHRISTIAN CHURCH

The trustees of Central Christian church are having placed on the north and west sides of the church grounds five handsome concrete lamp posts patterned much after the ones in central park. They will be a great addition to the property when in place and lighted.

### CARD OF THANKS

We wish to thank the neighbors and friends for the many kindnesses shown during the illness and at the death and funeral of Mrs. Allen W. Baldwin.  
The Relatives.

### SUSPECTED ROBBERS PROVED INNOCENT

Wednesday morning the local police received a message from Mexico, Mo., to look out for two men who had robbed a store in that city of \$40 in money and a suit of clothes.  
Night Captain Elliott and Patrolman Hurst went to the Alton station and upon the arrival of the Hummer they captured two colored men and one white man who were riding the top of the train.  
The white man gave his name as Raymond McBride and his home as Springfield, Ill., while the colored men gave the names of Claude William Boyd and Arthur Vance and their residence as Chicago. One of the colored men fell from the train trying to escape the officers and it was necessary to call Dr. King to the police station to give him attention.  
None of the men had any money about their persons and no suit of clothing. As there was no evidence against them Chief Kiloran turned them loose shortly after noon Wednesday and gave them hours to leave town which they were glad to do.

### RESERVE CHAUTAQUA CAMPING PLOTS

A large number of Chautauqua campers are anxious to again have the same camping place they had last year, and have made arrangements accordingly. Wednesday was the final day for having this privilege and from now until the chautauqua begins people will have the right to choose any plot not already taken. More than fifty persons have reserved tenting space already and the indications are that the number will be largely increased. Last year there were more than one hundred tents on the grounds and this year the probabilities are that the number will be even greater.

### NOTICE. I will not be responsible for any debts contracted by any person other than myself. William T. Filson.

### DR. AND MRS. A. A. TODD ENJOY FISHING VISIT

Dr. and Mrs. A. A. Todd left yesterday morning for a vacation visit of two weeks. They will spend one week camping at the Pisao chautauqua and will then go to Alton for a week's visit with relatives and friends. Their daughter, Miss Margaret Todd, has been visiting in Alton for the past several weeks.

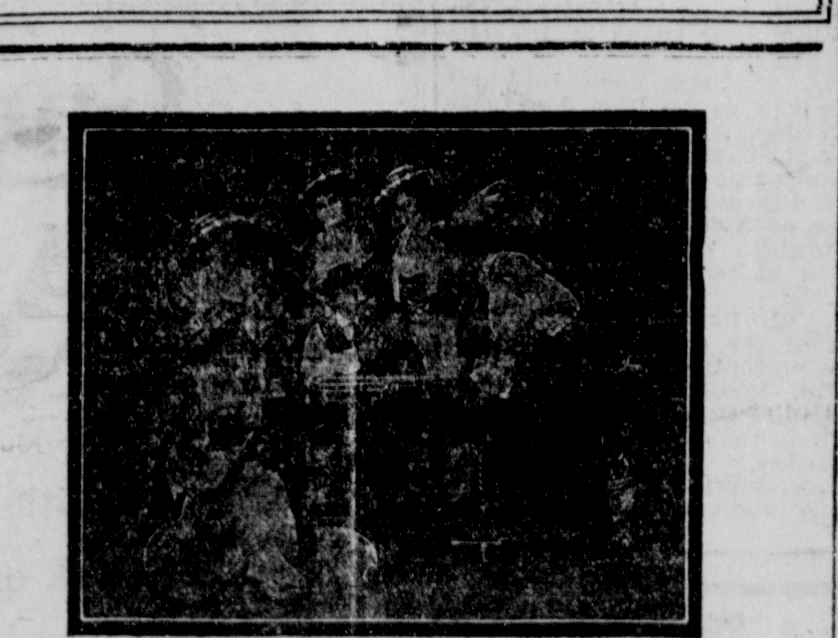

The Misses Cain, who have been living at 1320 West State street, are moving into their new residence at 218 Pine street, recently purchased from Walter W. Wright, who has moved to Boulder, Colo.

THE FIECHTL ALPINE SINGERS AND YODLERS

Have you heard the Yodel songs as they are sung by the peasant folk in Switzerland? If you have not you are due to receive a delightful surprise when Mrs. Fiechtl's Alpine Singers and Yodlers give their program.  
The Yodel song is the child of the Alps, and was born of the beautifully modulated echoes that resound thru the gorges and canyons, carrying the love messages of the shepherd lover to his mountain sweetheart. It is such a human sentiment and has the very flavor of the peaks and crags of beautiful Switzerland.  
Mrs. Fiechtl and her husband brought the first original company to this country to tour the United States, and have registered a tremendous success with their audiences everywhere.  
Some of the members of Mrs. Fiechtl's Company have travelled in England, France and Holland.  
One of the greatest treats of this Company is their famous echo song which is sung by Mrs. Fiechtl and one of her daughters, and which is given on the evening atmosphere reproduces the perfect tone, as it carries in the mountains. Under no condition can this echo be given on a rainy or stormy night. Attention is called particularly to the native instrument which is called the concert zither, producing a wonderfully sweet tone, and a very difficult instrument to play. This zither is used as accompaniment to the native songs and is mastered by a finished zitherist.

## Morgan County Farm Topics

One of the marked effects of the increase in values of farm lands in the prices of farm products is the difficulties that men have in securing farms to rent. Mention was made yesterday of the fact that 65 answers came to an advertisement of a farm for rent in the Journal. That was not an exceptional case and when the news of a farm for rent is spread abroad the owner nowadays is literally besieged with applicants.

The natural result has been to increase the cash rent and also to make changes in the share basis.

Farm land is renting in Morgan county now all the way from \$10 to \$20 per acre, the last of course being in very exceptional cases. Only a few years ago \$8 an acre was considered a very fair rental and \$10 an acre as high. One plan followed when the share basis is used is to pay a land owner one-half of the grain plus a stipulated rental of \$1 to \$3 per acre. Some farms are understood to have been rented on a grain basis with a guarantee from the renter to the owner that rent will not be less than \$20 an acre. In some such cases the renters are said to have guaranteed the returns with the understanding that they will make up any deficit and moreover, that if the returns are in excess of the amount, that the excess on the owner's half belongs to him.

The times have also made changes as to the grain provided for seed. In the past sometimes the land owner provided all of the wheat and oats seed and paid half of the threshing expenses. Then a year or two later came the plan of the land owner providing one-half the seed and paying for half of the threshing expense. Then last year it was quite a common practice for the renter to provide all of the wheat and oats seed and to deliver the owner one-half of the crop, free of expense to bin or elevator.

One reason that the land in some parts of Greene county has been slower in taking on the same advances that have come to Morgan county land has been the difference in the rental plan. There has been a comparatively recent time the renters have paid the owner one-third of the wheat and oats and possibly two-fifths of the corn. These different rental bases have naturally tended to hold down land values.

A number of Morgan county farmers are now preparing the seed bed for alfalfa. Authorities favor August as the best month for seeding and recommend that the seed be sown in a field which has been worked down to very fine condition at intervals during the preceding two weeks.

On the farm of Frank Robinson not far from Murrayville a seed bed has been put into fine condition for alfalfa and before the middle of the month Mr. Robinson will probably sow the seed. Then if a rain falls shortly afterward the alfalfa will be almost certain to make a sufficient growth to carry it thru the winter months without danger. If alfalfa is sown in August and a period of dry weather follows, it frequently happens that the plants do not become deep rooted enough to withstand the cold of winter. Alfalfa needs rain shortly after it has been planted and rains at later times make for better growth, but at the same time there must not be an excess of water on alfalfa and well drained land is necessary for its satisfactory and continuous growth.

There were many fields of alfalfa last year where a crop was cut only three times, whereas this year there is indication that it will be possible to cut off the fourth crop. The first crop this year came early and was heavy because of the early spring and summer rains. In some instances there was delay in cutting the first crop because of the wet weather and this had a natural tendency to make the second crop much lighter.

Recent rains have helped along a third crop and most fields will be ready for cutting in the course of another week or ten days. Then if the season is normal there will be plenty of time for a fourth crop. The danger about a fourth crop is that if alfalfa is cut very late in the fall and unusually cold weather follows there is not a sufficient growth to protect the plants thru the winter months.

The walkout of railroad men thus far has had little effect on the movement of grain. During the past week at one time or another the elevators at Woodson, Litterberry, Orleans, Arnold, Sinclair, Strawn's Crossing and Yeoman's have been unable to receive grain. Then when rains came and delayed threshing the elevators had a little chance to catch up. So yesterday many of the elevators thru the county were able to receive grain and some wheat was hauled to the Blackburn elevator clear from Woodson because the elevator there was full and no car on the track for shipment. The rain Monday night also caused some delay in threshing and the general result has been to stop the movement of grain to elevators and to give the

elevator management a better chance in securing cars.

Unless the tie-up becomes more acute there will be no serious results in grain movement. Should a tie-up come and the elevators be unable to secure cars then threshing for the most part must stop as elevators are nearly full. Comparatively few farmers have enough bin space to store the storage of wheat. A bin for wheat storage in order to prevent losses must be very tight and rat proof. Since few farmers have bins to meet these requirements, the only safe thing to do in case movement of freight stops is to stack wheat that is now in the shock. Some farmers are already regretting that they did not stack their wheat earlier and so avoid any dangers now of inability to thresh. They feel that after the grain has been in the shock for six weeks it will be hard to have it go thru the work of stacking.

The decided downward tendency of grain and pork prices the past few days has disturbed some farmers who feel that the prospect is true that the farmers must bear the greatest force of general onslaught against high living costs. It is generally realized that the prices of commodities must go down before living costs are lowered and dwellers in the cities are all very willing that the farmers should make the first reduction. So some farmers see in the present hammering on the government to make the beginning of lower levels and fear that some further sharp declines will come.

One farmer and stock feeder who has 375 head of hogs said last night that he didn't like the looks of things at all and that a further change in prices would mean a very serious loss to him in the marketing of the hogs he is now feeding. Still other farmers believe that reaction will come at no distant date and that a part at least of the decline will be recovered. While most people agree that something should be done to get lower living costs for the people, nobody understands just what ought to be done. They want the government to make the lower prices and do it quickly, but they really can't suggest how this can be brought about.

So far as the immediate future is concerned the thing most likely to happen is the granting of increased pay to railroad men. The people will speedily be so inconvenienced in matters of freight movement that they will be likely to combine in a request to the government to take immediate steps to bring about relief by granting higher wages, since there can be no immediate assurance of lower living costs.

If you listen to arguments of real estate agents you will be very sure that the price of land in Morgan county—and all central Illinois for that matter—is to continue upward. Local real estate men quote other counties to show that price levels here are nowhere near as high as those attained in some other counties where land qualities are not very different from those which obtain here.

You will find, too, if you are looking for a farm to buy that every real estate dealer has for sale "the best piece of land that lays out of doors." Talking about farms for sale, it is surprising but true that almost every farm has its individual defects. It seldom happens that the land agent can show to the prospective buyer a farm which has only good points.

Fortunately all men seeking land are not looking for just the same kind. Most every farm for sale has in addition to the level tillable land some parts cut by a stream or gully, some parts where tilling is needed. There are farms where the improvements, tho in good condition are not located adjacent to the pasture lands. On others the soil was originally of good quality but has not been well treated and so is not up to the proper standard of fertility. On other farms hill-sides which never should have been plowed have been growing grain, with the result that lots of good soil has been washed off, and as one man puts it, is now on the way to the Gulf of Mexico.

Some land buyers prefer heavy gumbo black soil. Others have had best results with soil a little lighter. Still others believe that a good timber soil is easier to handle than black soil and if the crop rotations are followed that the yields from this timber soil are uniformly better. It is fortunate for the land men that all buyers are not looking for just the same kind of farms.

An increasing number of Morgan county farmers plant soy beans in the corn and there is no recorded case where the results have not been satisfactory. Soy beans make wonderful feed for hogs or cattle, especially if the field of corn is to be "hogged" down it is desirable to have the beans planted in the corn rows. The beans make a balanced ration for the hogs together with corn and the results are said to be just as good as from tankage. Aside from the feeding value of soy beans the soil where they are grown is fertilized. A field where beans have been planted for a year or so is much mellowed than before and farmers find that soil where the beans have been grown responds better to cultivation and less than the same soil where there have been no beans grown.

## LEAGUE OF NATIONS

Editor Journal:—

On August 23rd, 1918, after our glorious American boys had turned the tide of battle in Europe, and before the Argonne campaign had opened, Senator Henry Cabot Lodge, Chairman of the Foreign Affairs Committee, and Republican leader of the Senate, made a speech in the Senate, part of which I quote:

"It is the German propaganda which we shall be obliged to face in the coming months, and therefore it seems to me of the last importance to know exactly what we mean by Peace.

"It must be a just and righteous peace. \* \* \* What is the reducible minimum? \* \* \* We intend to make the world safe for democracy. But what do we mean by democracy? If we mean, as we undoubtedly do, the democracy of England, France, Italy, and the United States, we can all understand it.

"Broadly speaking there is only one way to obtain security of nations, this safety of democracy, this preservation of freedom and civilization, and that is by reducing Germany to a condition where by no possibility can she precipitate another war for universal conquest, with all the attending horrors upon an unoffensive world.

"Again we are faced by details. How can this be done? I see only one way in which it can be done, and I will enumerate the results, the hard facts, the essential conditions to which we must adhere.

"Belgium must be restored; Alsace and Lorraine must be returned to France. All of those areas where the Italian race is predominant, including Trieste, must go back to Italy.

"Serbia and Rumania must be established in their independence. Greece must be made secure. Most important of all, if we would make the world safe in the way we mean it to be safe, the great Slav populations now under the Government of Austria—the Jugo-Slavs and the Czech-Slavs—must, whom they loathe, must be established as independent states.

"The Polish people must have an independent Poland, and we must have these two independent States created so that they will stand across the pathway of Germany to the East. Nothing is more vital than this for a just and righteous and an enduring peace.

"The Russian provinces taken from Russia by the villainous peace of Brest-Litovsk must be restored to Russia.

"Constantinople must be finally taken away from the Turk. It would be a miserable outcome to have Turkey retained in Europe, a curse to her subjects and neighbors, a plague spot and breeder of wars.

"Palestine must never return to Turkish rule, and the persecuted Christians of Asia Minor, the Syrians and Armenians—must be safe. The German colonies ought never to be restored to the Empire.

"These in outline are the principle conditions which alone will give us a victory which is worth having, and when we talk about a complete peace and a just and righteous peace, let it be known to all the world that this is what we mean. The United States occupies, fortunately, a position in which she will be able to speak with a powerful voice. We seek no territory, nor material gain for our country; we seek only safety of civilization and freedom.

"When Germany is beaten to her knees, and the world is made safe by the arrangement which I have suggested, then and not before, we shall have the just and righteous peace for which we fight."

All these righteous provisions are in the peace treaties. They are as Senator Lodge says, the "irreducible minimum." But how are these terms of righteous peace to be secured?

The nations which fought the war to victory must now stand together in order to guarantee that none of the above conditions shall fail.

Without a League of Nations formed to "respect and preserve, as against external aggression, the territorial integrity and political independence" of these newly formed republics, they will become the prey to the avarice of the autocracies, and the world will no longer be safe for democracies.

"Serbia and Rumania must be established in their independence," says Lodge.

"Greece must be made secure," says Lodge.

How?

"Most important of all, if we would make the world safe, in the way we mean it to be safe, the great Slav populations—the Jugo-Slavs and Czech-Slavs—must be established as independent states," says Lodge.

How?

"The Polish people must have an independent Poland, and Czech-Slovakia and Poland, two independent States," says Lodge, "must be maintained so they will stand across the pathway of Germany to the East."

How?

Mr. Lodge says, that "nothing is more vital than this for a just and righteous enduring peace."

How?

"Constantinople must be taken from the Turk," says Lodge, "for it would be a miserable outcome to have Turkey retained in Europe—a curse to her subjects and neighbors, a plague spot and breeder of wars."

How?

"Palestine must never return to Turkish rule," says Lodge, "and the persecuted Christians of Asia Minor—the Syrians and Armenians—must be made safe."

How?

The only answer to all these questions is a League of Nations which fought for freedom must be organized to maintain freedom.

Some say we should now crawl back into our shell and let the world go hang. We are told that is Americanism.

I think the children and children's children of the 4,000,000 American boys who hazarded their lives in the great enterprise of "making the world safe for democracy," will regard their fame and renown enhanced a hundred fold by the world wide blessing they helped to secure.

That will make the American name the proudest in all history.

On the contrary, if America shall fail now in this great emergency—this great opportunity—the world will not forget it in a thousand years.

James H. Danskin.

## Great Majestic Range Bargain Week

Special Demonstration and Bargain Sale of Majestic Ranges  
At Our Store—One Week  
Only  
AUG. 4 TO 9TH INCLUSIVE  
To Be Truly Economical There Should be a Majestic in Your Kitchen  
THE BARGAIN  
And It's Well Worth Your While

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware)—it's worth a lot to you. Come and see for yourself. AND REMEMBER—The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon. YOUR OPPORTUNITY IS HERE—At our store—during our Majestic Bargain Week, it's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

### Two New and Important Features

THE WONDERFUL UNSEEN RIVETING—Yes, it's rivet tight, just like the old Majestic, but the rivets clinch inside of nickled parts, leaving nickel smooth as glass, and there are no big, bulky bolt-heads on the inside. And, remember, rivets hold tight; bolts with only one or two threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

OH, JOY! TOP NEEDS NO BLACKING—A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt and worry of trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color.

If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range—know the inside of ranges.

### WELL KNOWN COUNTY RESIDENT PASSES AWAY

Charles Edward Reynolds of Woodson Died at Our Savior's Hospital Wednesday Afternoon—Only Ill a Few Days.

Charles Edward Reynolds, a resident of Morgan county practically all his life, died at Our Savior's hospital at 3:50 o'clock Wednesday afternoon. Mr. Reynolds was taken ill only a few days ago with an attack of acute indigestion. Later complications came which resulted in death.

Deceased was the son of F. A. and Emily Sheppard Reynolds and was born two miles north of Woodson May 28, 1872. With the exception of two years spent near Rich Hill, Mo., all his life had been spent in the Woodson neighborhood, his present home being two and one half miles east of Woodson.

February 5, 1901 Mr. Reynolds was united in marriage to Miss Nellie Watson, daughter of Isaac Watson. To this union five children were born, two of whom died in infancy. He is survived by his widow and the following children: John E. Reynolds, Charles Truman Reynolds and Ruth Aileen Reynolds, all of Woodson.

He also leaves one brother, William Reynolds, residing east of Woodson and three half sisters and two half brothers: Mrs. Jane Hembrough, South Jacksonville; Mrs. Mary Darling, Ashland; Mrs. Viola McCurley, Modesto; Allyn Morrow, California; and George Morrow, Woodson.

During his entire life Mr. Reynolds followed the occupation of farming. He was accounted successful in that calling. Thru the years he built up a reputation for honesty and fair dealing and stood high in the esteem of his fellow citizens. He was devoted to his family and his home life was ideal. Mr. Reynolds was a member of the Modern Woodman.

The remains were removed to the Gillham undertaking parlors and prepared for burial.

Funeral services will be held from Ashbury church at 11 o'clock Friday morning in charge of the Dr. G. W. Miller of Woodson. Interment will be in Ashbury cemetery.

### ONLY ONE ROAD NOW HANDLING FREIGHT

Railroad Strike Assumes Serious Proportions—No Freight Moving on Wabash, Alton and C. P. & St. L.—Burlington Still Operating Trains.

But for the operation of trains by the Burlington, Jacksonville would be practically marooned so far as freight shipments are concerned.

Wednesday the Wabash and Chicago & Alton roads did not operate any freight trains. The Alton made up a thru stock train at Roodhouse Wednesday for Chicago. The C. P. & St. L. sent out the local from this place north. There was no incoming freight.

The Burlington is especially well equipped with engines. For this reason the road has been able to operate its freight and passenger trains, tho they have been curtailed to some extent.

All of the passenger service on the Wabash and Alton is delayed because of engines not being in the best condition. The west bound passenger on the Wabash due in Jacksonville at 5:20 p. m., did not arrive Wednesday evening until after 9 o'clock.

Indications are that the C. P. & St. L. will be entirely tied up today. The local freight ran out of Jacksonville yesterday morning but there was no local in from the north. Both trains are now at Havana.

Speaking of the situation last night Superintendent George W. Imgrund of the local shops said that it was not likely that a passenger train would be run out of Jacksonville this morning. Since the men walked out Saturday Mr. Imgrund has been on the job day and night.

Wednesday evening he took the passenger train to the shops and ran it into the shops and locked it up. He said that he did not see how it would be possible to get a train out today. So long as the train was operated it ran on schedule.

### POTATO WART.

A new and dangerous potato disease known as potato wart has made its appearance in the United States and the government is very anxious to know if it exists in this county. Potato wart can be readily recognized. Wart-like growths appear on the surface of the potatoes, usually at the eyes. These are light brown when young, becoming black when older, and are rough and spongy in texture. The wart may become quite large and in case of bad infection the whole potato is transformed into a rough spongy mass.

The disease has been reported from only one state in the Union, that being Pennsylvania and vigorous measures are being taken to stamp it out there.

In an effort to determine whether the disease has gained footing in other centers, men are being sent out to make a thorough survey of every state. Mr. F. E. Beghtel, who is working in Illinois as now studying the situation here. As it is quite impossible for Mr. Beghtel to visit every garden and farm personally it is highly important that everyone who grows potatoes, as well as those who handle and ship them, keep careful watch for the appearance of the trouble indicated above. Should warty potatoes be found send specimens to County Agent, G. B. Kendall or to the Experiment Station, Urbana, Illinois and prompt attention will be paid to the situation.

### WEEDS DISAPPEARING

Citizens are co-operating in a very satisfactory way for the removal of weeds, according to a statement made yesterday by Chief of Police Kiloran. As already noted, following a trip of inspection the plan was decided upon of having the chief of police call the attention of property owners in a personal way to the need for cutting rank and noxious weeds.

Chief Kiloran spent yesterday in making these calls and in every instance found citizens ready to co-operate in the needed work. The truth is that many of the weeds about which complaints have been made have now been cut.

endorsed by the voters of North Dakota at a special referendum election on June 26, is being put into operation.

The bank of North Dakota, in which all state, county and municipal funds are to be deposited under the new laws, is in operation, but is not yet ready to make loans and handle deposits on a big scale.

The bank now employs twenty persons with an annual payroll of \$50,000. The bank's resources will be more than \$31,000,000. Public funds totaling \$21,000,000 have been reported and there are state bonds of \$10,000,000. Only about \$100,000 worth of bank bonds have sold in the state, but bank officials explain this by saying investors held off pending the outcome of the referendum. The bank had planned to sell \$500,000 worth of bonds.

When the institution is in full operation a statement similar to those from the federal reserve banks will be issued monthly outlining conditions over the state. J. R. Waters, formerly state bank examiner, is head of the bank and F. W. Cathro, for 30 years a North Dakota banker, is director-general.

## AWARDED MEDAL TO JAPANESE GENERAL

American Commander in Siberia Presents Distinguished Service Medal to Japanese Commander in Siberia—Expressed Gratitude to President of U. S. for Honor Conferred.

Vladivostok, June 23.—(Correspondence of the Associated Press.)—Major General William S. Graves, the American commander in Siberia, recently presented the Distinguished Service Medal to General K. Otani, senior Allied commander in Siberia. In doing so General Graves said he desired to testify to the courteous and careful consideration given by the Japanese commander to all questions placed before him.

General Otani expressed his gratitude to the president of the United States for the honor conferred and tendered a dinner to General Graves and the American staff. In proposing a toast to General Graves the Japanese general stated that "the harmony and co-operation which exists between American and Japanese forces in Siberia is largely due to the wise manner in which General Graves has handled affairs."

General Otani said that he had issued an order to the Japanese forces in Siberia informing them of the bestowal of the medal and urging them to redouble their efforts to "promote and to make still stronger the spirit of concert and friendship existing between the armies of Japan and the United States."

# Speed—and the price of Meat

Forty-eight hours after cattle are purchased by Swift & Company they are hanging up as meat; within two weeks the fresh meat has been sold.

This speed means money in the pocket of the one who raises the live stock and of the one who eats the meat. It means a rapid "turnover" of capital and investment—making possible the transaction of daily business on a narrower margin of profit.

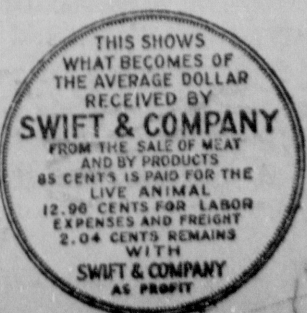

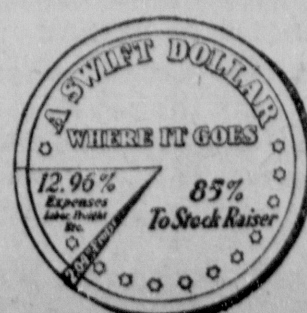

Speed permits Swift & Company to do a successful business on a profit of a fraction of a cent per pound.

Such speed, with its rapid turnover and smaller profits would be impossible without the efficient organization and wide scope of Swift & Company, the results of fifty years' experience in handling meat.

Do you believe that government interference with the complicated and efficient machinery of the packing industry can be of any benefit? Experience with government regulation of railroads and telephone and telegraph might suggest an answer.

NAVAL PROTECTION  
FOR PACIFIC COAST

Despatch of Pacific Fleet to Western Coast Marks End of Long Campaign for "Adequate Naval Protection"—Division of Navy Hailed With Delight.

San Francisco, Aug. 4.—Division of the United States navy and despatch to this coast of the Pacific fleet marks the end of a long campaign that has been waged by officials and citizens of Pacific states for what they termed "adequate naval protection."

The Pacific coast attitude had been that great possibility of attack menaced the Pacific states unless the nation sent westward a large fleet.

Active campaigning for a big Pacific naval force began with the close of the Spanish-American war. It was urged that the Philippines and other Pacific islands possessed by the United States should be protected. Governors, congressional representatives and other officials made strong representations in the months following that war for increased naval strength on the Pacific.

After the building of the Panama canal many men in public life asserted that, in case of attack from the Pacific and destruction of the canal the largest part of the country's naval force would be kept away from the Pacific for a long period during which the Pacific states would be open to invasion.

Public men and newspapers of the Pacific coast were practically a unit for naval expansion and ultimate station of a large force here. Plans for curtailing naval expansion with the signing of the armistice in some quarters were countered by many insistent demands from this coast that the full building program be adhered to.

The announcement of Secretary Daniels that the navy was to be divided and approximately 200 ships stationed in the Pacific was hailed with delight.

John Keemer of Scott county made the city a call yesterday. Mrs. Maude Drake is quite ill at her home on West North street.

M'GREGOR THE GREAT  
WINS PRESS STAKE

Cox Makes it Two Straight When He Drives Mignolia to Victory in the 2:07 Class Trot.

Cleveland, O., Aug. 6.—McGregor The Great owned and driven by Walter R. Cox of Dover, N. H., won the \$3,000 Press Stake for 2:17 trotters, the feature event of today's Grand Circuit meeting at North Randall.

Cox made it two straight when he drove Mignolia to victory in the 2:07 class trot. Both horses outclassed their fields and won in straight heats at prohibitive odds.

After winning the first heat of the 2:12 pace yesterday, Double G, the favorite succumbed today to Tenna, rank outsider in the betting. Double G, finished a poor eighth in the second heat and Valentine was substituted for Sturgeon in the sulky in the third heat, but Double G, could not finish better than fourth.

Gold Quartz was the third favorite to award, finishing first in the 2:17 pace in straight heats. Belle Chaffin which finished second in the first heat was drawn after pacing fourth in the second heat.

Special recipes are not necessary for using Mazola. Use any of your own —with less Mazola.

It is equal to butter, better and more wholesome than margarines or compounds and you use ¼ to ⅓ less Mazola for shortening, as in pie crusts, biscuits, etc.

Use Mazola over and over again—it carries no flavors or odors. Its economy is remarkable.

**CLOSE CASE AGAINST  
CAMP GRANT NEGROES**  
ROCKFORD, Ill., Aug. 5.—At-  
ter twenty three days of actual  
trial during which eighty three  
witnesses were summoned before  
the court, the case against the  
eight Camp Grant negroes charged  
with attacking a white woman in  
May, 1918, was closed with the  
plea by the prosecution today.

A complete record of the findings  
of the court will be sent to Presi-  
dent Wilson soon and he will take  
the case under advisement for  
the second time, the first time  
he having granted the colored sol-  
dier a re-trial to decide the fate  
of the alleged criminals. Penalty  
for the crime is death under army  
regulations.

# Itching, Scratching, Skin Diseases That Burn Like Flames of Fire

Here is a Sensible Treatment That Gets Prompt Results

For real, downright, harrassing discomfort, very few disorders can approach so-called skin diseases, such as eczema, tetter, boils, eruptions, scaly irritations and similar skin troubles, notwith standing the lavish use of salves, lotions, washes, and other treat ment applied externally to the ir ritated parts.

No one ever heard of a person being afflicted with any form of skin disease whose blood was in good condition. Therefore, it is but logical to conclude that the proper method of treatment for pimples, blotches, sores, boils,

rough, red and scaly skin, is to purify the blood and remove the tiny germs of pollution that break through and manifest their pres ence on the surface of the skin. People in all parts of the coun try have written us how they were completely rid of every trace of these disorders by the use of S. S. S., the matchless, purely vegetable, blood purifier. S. S. S. goes direct to the center of the blood supply, and purifies and cleanses it of every vestige of for eign matter, giving a clear and ruddy complexion that indicates perfect health. Write today for free medical advice regarding your case. Address: Swift Spe cific Co., 443 Swift Laboratory, Atlanta, Ga.

## Verily, It's So!

"Prest-O-Lite" is not a but THE battery service sta tion in Jacksonville. Its reputation now extends well into the surrounding community.

Battery stations are springing up like mushrooms af ter a hard rain—but it does not take a discriminating public long to separate the wheat from the chaff.

A storage battery should not be "monkeyed" with. None but a thoroughly experienced battery man should be allowed to test, re-charge or repair your battery. At the Prest-O-Lite Station you get the workmanship and advice of one who know batteries as a physician knows the human body. You can place your battery in the hands of such a man in perfect confidence.

## At Last

YOU may obtain a pure white dressing for canvas shoes that won't rub off—because it CAN'T.

And then Nova White, does more than that—it cleans the canvas fabric as spotless as the day it was made—and gives it a pure bright-white finish without the slightest trace of ugly streaking or off-shading which wearers of white shoes so much dislike.

Nova comes in pure white and a number of other shades to suit your particular needs.

For a superior liquid dressing use Dainty White. Goes on quickly and easily and will not rub off. Nothing better in liquid form.

"The Mark of Quality."  
We make a dressing for every shoe under this trade mark. All are of superior quality.

## Eagle Brand

# NOVA

And remember: there is no acid in either Nova or Dainty White, not one bit. And no bleach to eat and cut even the daintiest fabric. Nothing but a wonderful clean fresh-looking snowy white-ness that lasts, and lasts, and lasts.

Buy Eagle Brand Paste for your fine black, brown, russet or ox-blood shoes. Be sure and ask for all of the products by name and look for the Eagle trade mark on each—it is your guarantee of the best.

## "Fat Back" Hog Feed

(Another Car Now Unloading)

Fat Back Hog Feed is a balanced ration. It elimi nates doubt in feeding, it grows and fattens, yet it regulates. Its ration—that is protein in proportion to carbohydrates and fat X 2.25—is 1:3.7. Fat Back Hog Feed provides the greatest possible amount of feeding value for the money.

## THE GUARANTEED ANALYSIS

PROTEIN . . . . . 18% FIBRE . . . Not over 10%  
FAT . . . . . 4% Carbohydrates . . 58%  
Fat Back Hog Feed will give you better feeding results at less cost for some of the following reasons, viz: It is balanced; It is palatable—hogs keep on their feed—They are comfortable —Their ration is diversified. Lots of water is consumed—a cheap source of weight. Constipation is stopped. Intestinal and stomach worms are largely eliminated as also is cannibalism, chicken eating and roosting. Bone building materials are sufficient in proper amounts to stand shipping of hundreds of miles—cripples and weak hogs do not bring average market prices. The total amount of feed consumed is less when fed alone or with vegetable feeds because the digestible nutrients are greatly increased. Fat Back costs less than any other high class hog feed. Isn't that important?
